ELSEVIER Applied Mathematics and Computation 93 (1998) 299, 300

APPLIED MATHEMATICS AND COMPUTATION

Author index to volume 93 (1998)

Argyros, I.K., Sufficient conditions for constructing methods faster than Newton's 93 (1998) 169
Aykut, A., On a boundary value problem for a differential equation with variant retarded argument 93 (1998) 63

Bajpai, R.P., Biophoton emission in the evolution of a squeezed state of frequency stable damped oscillator 93 (1998) 277
Bratsos, A.G., A family of parametric finite-difference methods for the solution of the sine-Gordon equation 93 (1998) 117

Cao, Z.-H., A note on convergence of quasi-minimal residual smoothing 93 (1998) 289
Chen, J., Preconditioning projection nonconforming element method for the lowest-order Raviart–Thomas mixed triangular element method 93 (1998) 31
Chang, F.C., More on quick evaluation of determinants 93 (1998) 97
Cheng, C.-Y., *see* A. Jonckheere, E.A. 93 (1998) 207
Choi, J., Integrals involving a function associated with the Euler–Maclaurin summation formula 93 (1998) 101
Chu, C.-K., *see* A. Jonckheere, E.A. 93 (1998) 207

Ding, J., A maximum entropy method for solving Frobenius–Perron operator equations 93 (1998) 155

Franke, C., Solving partial differential equations by collocation using radial basis functions 93 (1998) 73

Hamdan, M.H., An alternative approach to exact solutions of a special class of Navier–Stokes flows 93 (1998) 83

Jonckheere, E.A., Simplicial algorithms for computing stationary probabilities of stochastic matrice 93 (1998) 207
Jukić, D., *see* Scitovski, R. 93 (1998) 219

Khuri, S.A., *see* Wazwaz, A.M. 93 (1998) 91
Kumar, S., *see* Bajpai, R.P. 93 (1998) 277

Lee, C.-O., A conforming mixed finite element method for the pure traction problem of linear elasticity 93 (1998) 11
Li, L., *see* Chen, J. 93 (1998) 31
Li, L., *see* Xu, X. 93 (1998) 233

Möllers, Th., On the global approximation and interpolation of locally described real valued functions 93 (1998) 1
